47, Ludgate Hill: July 1, 1853.

MESSRS. LONGMAN'S new books, published since last "Circular," include a new edition of Dr. Ure's great Dictionary of Arts, Manufactures, and Mines, enlarged and corrected throughout, and brought down to the present time;—Mr. St. John's new work, "There and back again in search of Beauty;"—a new sketch of travel, by Mr. Fergusson, author of "The Pipe of Repose," for the July number of the Traveller's Library, entitled "Swiss Men and Swiss Mountains;"—Riddle and Arnold's School English-Latin Dictionary;—and the late Mr. Haydon's Autobiography.

The new books published by Mr. Murray within the last few days comprehend the long expected Sir Hudson Lowe Papers, forming three handsome volumes: this work is published simultaneously in the United States by special arrangement with the Messrs. Harper;—the concluding volumes of the Grenville Papers;—and Lieut. Hooper's Ten Months among the Tents of the Tuski.

Mr. Bohn's literary contributions for July comprise a new volume to each of his valuable and now national series of books:—To the Standard Library, the 5th volume of Milton's Prose Works, containing the conclusion of the Christian Doctrine;—to the Classical Library, Aristotle's Organon, or Logical Treatises;—to the Illustrated Library, a Pictorial, Descriptive, and Historical Account of China;—and to the Antiquarian, Matthew of Westminster's Flowers of History. Mr. Chapman has commenced a cheap series of publications of German and other theological and philosophical writers. M. Ampère, the new claimant for the credit of originating the Electric Telegraph, is publishing an original and intelligent series of papers, in the "Revue des Deux Mondes" upon the United States.

Mr. Murray's well-known and established household companion, "Domestic Cookery," after realising a sale of 200,000 copies since the first edition under Mrs. Rundle's name, is now being issued, completely revised, and published at 5s.—"The Protoplast" is as singular and original in title as in scheme, comprehending a series of essays devoted to the consideration of origins and primaries.

The American popular work on Infidelity, its Course and Cure, by Dr. Nelson, has just commenced what may be presumed will prove a course of cheap reprints: the first announced is at 2s.

The new works of the month also include Lady Louisa Tenison's Castile and Andalusia;—A Memoir of Dr. Bathurst, late Bishop of Norwich, by his Daughter, Mrs. Thistlethwayte;—A Second Series of Meliora, by Viscount Ingestre;—a new book by Talbot Gwynne, Author of "School for Fathers," entitled Silas Barnstorke;—Stray Leaves from Shady Places, by Mrs. Crossland (late Camilla Toulmin);—the Rev. Calvin Colton's Genius and Mission of the Protestant Episcopal Church

in the United States, edited by Mr. Connelly;—a Memoir of the late Rev. Joseph Gilbert, by one of his Sons;—another work of wandering travel in Spain, translated from the French of Theophile Gautier, forming the new volume of the Illustrated Library;—and a complete review of the British Indian possessions to the present time, by John Capper, entitled *The Three Presidencies, their Rise, Progress, and Present Condition*, forming the 8th volume of the Illustrated London Library.

Mr. Thackeray's new work on the Humourist Writers bids fair, judging from the critical notices, to meet with a popularity only exceeding that extended to the work when delivered in Lectures. The author has a new serial in preparation: whether connected in any way with his recent experience in the United States does not appear from the announcement.—Mr. Samuel Warren's works will shortly be republished in a cheap form, in weekly and monthly parts, commencing with the *Diary of a Physician*.

Sir A. Alison's second volume of his *History of Europe from the Fall of Napoleon* will be published in October; also Miss Strickland's fourth volume of the *Lives of the Queens of Scotland*.—Messrs. Blackwood have also nearly ready a series of *Designs for Farm Houses, Cottages, and Farm Steadings*, by John Starforth, Architect, with sixty-two plates.

Messrs. Seeley announce the publication of the Warburton Lectures of last year; and a small volume from Bishop M'Ilvaine, consisting of Five Sermons preached during his recent visit, published as a valedictory offering of Christian love and remembrance towards his brethren in England; an *Historical Sketch of the Jesuits*, by the Rev. G. W. Grinfield; and the *Berlin Revolution in its relationship to the University and the School*, by the Rev. B. W. Wright.

Reference was made in a previous "Circular," to the arrangements pending for a systematic translation and publishing in this country of all the leading new French publications. An important announcement will appear in our next, from Messrs. Vizetelly, who will commence the series by the publication of M. de Lamartine's "*History of the Constituent Assembly*." There is no doubt that the effect of the late Convention will soon show itself with an important benefit to the literature of both countries; our Publishers are now becoming sensible of this, and take the precaution of registering every work of any importance, in Paris, both for sale and translation. Those of our publishing friends not already aware of it, may be glad to know that this may be done through the Publishers' Circular Office.

A new paper is about to appear in Manchester, under the title of "*The Manchester Weekly Advertiser*," with a large guaranteed circulation; a great portion of it to be devoted to literature, and it seems to supply a want which has long been felt in the manufacturing metropolis of England. "*The British Journal*" is the title of a new monthly announced this month as a journal of popular literature, at the popular price of one shilling; amongst the articles in the first number are contributions from Horace Mayhew, Angus Reach, and Captain Mayne Reid. The "*Rifle Rangers*," by the last-named author, forms the new volume of the ParLOUR Library.

MR. THACKERAY'S LECTURES

ON THE ENGLISH HUMOURISTS OF THE EIGHTEENTH CENTURY.

"To those who attended the lectures, the book will be a pleasant reminiscence; to others, an exciting novelty. The style—clear, idiomatic, forcible, familiar, but never slovenly; the searching strokes of sarcasm or irony; the occasional flashes of generous scorn; the touches of pathos, pity, and tenderness; the morality tempered, but never weakened, by experience and sympathy; the felicitous phrases, the striking anecdotes, the passages of wise practical reflection: all these lose much less than we could

have expected from the absence of the voice, manner, and look of the lecturer."—SPECTATOR.

"What fine things the lectures contain! What eloquent and subtle sayings, what wise and earnest writing! How delightful are their turns of humour! with what a touching effect, in the graver passages, the genuine feeling of the man comes out! and how vividly the thoughts are painted, as it were, in graphic and characteristic words."

VOLUME II. of a new and splendid LIBRARY EDITION of
THE

POPULAR POETS AND POETRY OF BRITAIN.

EDITED, WITH BIOGRAPHICAL AND CRITICAL NOTICES,
 BY THE REV. GEORGE GILFILLAN,
 AUTHOR OF "GALLERY OF LITERARY PORTRAITS," "BARDS OF THE BIBLE," ETC.

* * This Edition has been in preparation for three years, and is intended to be distinguished by accuracy in the text, elegance of production, and extreme cheapness. The series will conclude with a few volumes of fugitive pieces, and a History of British Poetry, in which selections will be given from the writings of those authors whose works do not possess sufficient interest to warrant their publication as a whole.

Six Volumes, in extra cloth binding, will be delivered to Subscribers on
AN ANNUAL PAYMENT OF ONE GUINEA.

* * * For further details of the plan, see Prospectus, which can be had from most Booksellers, or direct from the Publisher, post free, on application.

The issue for the first year will comprise:—1, 2. Milton's Poetical Works, 2 vols.—3. Thomson's Seasons, and other Poems.—4. G. Herbert's Poetical Works,—5. Young's Night Thoughts.—6. The Poetical Works of Goldsmith, Collins, and T. Warton.

"It is a noble and handsome volume, and the whole series will form a national poetical library of great beauty and worth."—*Leeds Intelligencer*.

"This desideratum (a good edition of the Poets) is now in course of being supplied, in a style of excellence surpassing anything of the kind hitherto attempted.... We think we have said more of this work than could be said of any other with which we are acquainted."—*Edinburgh Advertiser*.

"The present series will prove a great acquisition, and cannot fail to command a large circulation."—*Carlisle Journal*.

"A marvel of beauty and cheapness in this age of low-priced literature."—*Norfolk News*.

"The volume is got up in a style of substantial elegance, which leaves nothing to be desired."—*North British Daily Mail*.

"The plan is excellent and spirited, and the volume before us is an admirable specimen of the style and execution of the work."—*Greenock Advertiser*.

"One wonders how volumes of such handsome character can be produced for a sum so low. Really it is a boon which we feel assured will be largely appreciated."—*Liverpool Times*.

"Mr. Giffillan's 'Life of the Poet' abounds in passages of the highest eloquence."—*Fife Herald*.

"Such works at such a price have never yet emanated from the press."—*Plymouth Journal*.

"The editor is a man of genius, and one of the most popular writers of the day. The first volume amply fulfils all that was previously promised."—*Dumfries Standard*.

"Excellent in substance, and most agreeable in form, we can honestly recommend it to the public."—*Norwich Mercury*.

"The present edition is one of the cheapest publications that ever appeared. The 'Lives,' by Giffillan, are a great acquisition."—*Reformers' Gazette*.

"We heartily commend this spirited undertaking to the favour of the public."—*Scottish Press*.

THE HIGHEST STYLE OF ARTISTIC LITHOGRAPHY

Will be found in the Works produced by

DAY AND SON, Lithographers to the Queen.

Landscapes, Architecture, Shipping and Figure Subjects—Portraits direct from Life on Stone, or from Paintings, Drawings, or Daguerreotypes—Medical and Scientific Subjects, executed in a superior style peculiar to this Establishment. Calotypes copied.

The large Staff of Draughtsmen required by Messrs. DAY and SON to execute the

MAPS, PLANS, AND SECTIONS, DIAGRAMS, &c., &c.

FOR HER MAJESTY'S STATIONERY OFFICE,

Offers to solicitors, engineers and surveyors, stationers and printers, throughout the country, great advantages for the rapid and economic execution of their Lithography. If required, a plan received by the morning post may be lithographed, and despatched by the return post.

To meet the growing demand upon

LITHOGRAPHY FOR COMMERCIAL PURPOSES, Messrs. DAY and SON have just erected the largest premises for the purpose in the world. In soliciting orders from Manufacturers and others for

PATTERN-BOOKS, SHOW-CARDS, LABELS, &c.

And every other Description of Lithography and Colour Printing, Messrs. DAY and SON promise a style of work of unequalled excellence, with economy and rapidity of execution. The smallest consumers of the productions of Lithography in any part of the Kingdom should apply to Messrs. DAY and SON for estimates, and it will be found, owing to the extent of this Establishment, that its manifest advantages, viz. superiority of work, great speed, and moderate charges, can be secured with satisfaction and saving to the customer.

PRINTING IN COLOURS,

As perfected and practised by Messrs. DAY and SON, has assumed a position hitherto unattained for artistic excellence, rapidity of execution, and economy of production. The first and only perfect realization of a painting in colours, "The Blue Lights" (after Turner), executed at this establishment, secured for itself the designation of a Painting Print. Other examples of great merit, more particularly illustrating rapidity and economy of production, combined with artistic excellence, will be found in the three important works by

MATTHEW DIGBY WYATT, ESQ.

Namely, "The GEOMETRICAL MOSAICS OF THE MIDDLE AGES," "METAL WORK and its ARTISTIC DESIGN," and "The INDUSTRIAL ARTS OF THE NINETEENTH CENTURY."

These works, although elaborately printed in colours and gold, have been sold at the price of uncoloured works. The last-named, consisting of 160 plates, issued in Fortnightly Parts of four plates, proves the possibility of adapting Chromolithography to periodical works—to book plates requiring long numbers cheaply and quickly—and to geological or other coloured maps.

Messrs. DAY and SON are prepared to estimate and undertake works of any extent and to meet every requirement as to quantity and speed, or necessity as to price.

STEEL AND COPPER-PLATE PRINTING OF EVERY DESCRIPTION.

LADIES, Amateurs of Drawing, will find the reproduction by themselves of their own Sketches, by means of Lithography, a most delightful occupation for leisure time. Materials and instruction can be had of
